Discussion I	tems:
--------------	-------

- 6. Board to Select Chair and Vice Chair for 2025:
- 7. <u>Board to Receive the 2024 DWR Fall Levee Inspection Results</u>: The District received an acceptable "A" rating for all urban and rural levee units. (See Handout)
- 8. <u>Board to Receive and Consider a Draft Capital Improvements Plan</u>: Staff has been working with MHM and YWA on a draft Capital Improvements Plan to identify, prioritize, and budget for upcoming infrastructure projects over the next several years. Projects include culvert replacements, pump station upgrades, security upgrades, patrol road rehabilitations, telemetry upgrades, and more. (See Handout)
- 9. Board to Receive Information About the Yuba County Parks & Recreation Work Group: Staff attended Yuba Co. Parks and Rec. workgroup meetings on December 12th and January 9th to discuss the county's goal and objective to develop, review, and update a plan to promote the utilization of parks, walking paths, playgrounds, and other recreational activities across Yuba County as part of exploration for

possible formation of a regional park's recreation authority. The current Yuba County Parks Master Plan from 2008 identifies specific local parks, trails, sports fields, various indoor & outdoor recreational programs, and special use areas. The plan also mentions that other agencies, including RD784, serve parks and recreation-related functions for communities within Yuba County; although, there are no specific activities or functions identified in the plan. The District does not discourage non-motorized recreation such as walking, biking, etc. Staff is seeking direction from the Board whether or not to engage with the workgroup on this effort which would entail attending monthly workshop meetings and supporting the workgroup's goal and objective, which is to promote and increase the use of currently available parks and recreation areas across Yuba County. (See Handout)

- 10. <u>Board to Receive Information on HR Consulting Firms and Provide Direction to Staff</u>: In the past, the GM has conducted wage and salary surveys for all staff. In preparation for upcoming employee wage & salary surveys (including for the GM), staff is seeking direction from the Board to either continue conducting surveys internally or begin utilizing an outside HR consulting firm.
- 11. Board to Receive the Monthly Budget Snapshot

Parks and Recreation Workgroup Charter

Purpose:

The Yuba County Parks and Recreation Workgroup is charged with promoting the utilization of parks and recreational sites across Yuba County. In addition, the workgroup will decide how best to incorporate the recommendations from the 2008 Yuba County Park Master Plan with the goal of ensuring Yuba County is a great place to live, work, and play.

Background and Rationale:

In 2022, Yuba County published its Community Health Assessment (CHA) which is a data driven document that can be used by members of the Yuba County community to better understand the health needs and resources of the community. As part of the CHA, a community health survey was distributed county-wide to receive community input from individuals who live and/or work in Yuba County with a focus on what they identified were the top health issues. In total, 996 surveys were collected and in the last free response question that asked participants what they would like to see happen to make Yuba County a healthier place to live – the top identified theme was to focus on Neighborhoods and Built Environment (NBE), which became one of three health priorities Yuba County community stakeholders chose to focus on for the next 3-5 years. The other health priorities are health care access and mental health access. These top three health priorities and the goals, strategies, and tactics comprise the Yuba County Community Health Improvement Plan (CHIP). One of the key goals of the Safe Neighborhood and Built Environment (SBNE) priority was to establish a Yuba County Park and Recreational Workgroup with this charter being the vehicle to establish the workgroup's goals and expectations.

Goal:

The Yuba County Park and Recreational Workgroup is a multi-agency working group of parks and recreation professionals and recreation stakeholders working and/or living in Yuba County. The primary goal, and ultimate desired outcome, is to promote and increase the use of currently available parks and recreation spots across Yuba County by January 30, 2026.

Objectives:

- Compile a comprehensive list of parks and recreation spots.
- Develop and implement a promotional plan to distribute the compiled list to the community and visitors.

- Implement mechanism to ensure sustainability of coordinated promotion of parks and recreation information.
- Discuss the feasibility of formation of a regional park's recreation authority and/or other ways to implement the 2008 Yuba County Park Master Plan

Deliverables:

- Compilation of all parks and recreational sites available in Yuba County
- Implementation plan document that describes the necessary steps on promoting parks and recreation options

Benefit:

Improve health and well-being across Yuba County by promoting and expanding accessibility to recreation options within the community.

Scope:

The workgroup will focus on promoting parks and recreation options within the jurisdiction of the entities on the workgroup including parks, recreational sites, trails, and school sites. The workgroup will decide as a group whether to move forward with formation of a regional park's recreational authority.

Risks/Considerations:

- Objectives may change based on decision of formation of a regional park's recreation authority or not.
- Risk of lack of funding to maintain a centralized location for the aggregated information.

Budget:

None identified at this time.

Workgroup Structure:

The structure of the workgroup is composed of two elements; (A) entities that operate and maintain parks and recreation spots, (B) entities that have a shared interest and/or resources to assist with meeting the goals.

- A. Entities that operate and maintain parks/trail spots.
 - Bear Yuba Land Trust
 - Browns Valley Irrigation District / Collins Lake
 - Camptonville Community Partnership
 - City of Marysville
 - City of Wheatland
 - Olivehurst Public Utility District (OPUD)

Workgroup Operating Guidelines

Convening of Meetings

• Workgroup meetings will be held at the time and place chosen by the workgroup lead or admin with input from workgroup members.

- Starting in January 2025 and for the first six months, meetings will be held monthly on the 2nd Thursday of each month.
- Workgroup members will be informed of meetings or meeting changes (time, date, location, virtual/in-person) through email or in person at the meeting.

Communications:

- Workgroup documents will be posted in a location yet to be determined.
- Questions about the workgroup should be directed to the workgroup admin via email.

Conduct of Meetings:

- Meetings will be facilitated.
- Informed alternates are acceptable and encouraged if the workgroup member cannot attend
- After all meeting agenda items have been addressed, workgroup members will be provided an opportunity to ask any questions or follow up on items if time permits.
- Meetings will end with a clear understanding of expectations and assignments for next steps.
- Meetings are expected to be one hour unless otherwise noted on the meeting invite or email communication.
- The workgroup admin will keep record of meeting attendees, key issues raised, and actions required.
- Meeting attendees will be asked to sign-in via the sign-in sheet to assist with record of attendance purposes.
- Within 10 business days after a meeting, the workgroup admin will send a meeting summary that includes list of attendees, key takeaways, action items, general notes, and post meeting resources to all workgroup members.

Decision Making Process

Workgroup members will strive to reach consensus on all decisions. In the event that consensus cannot be obtained, then simple majority of the workgroup represented entities will be taken. Members will strive to work expeditiously to try to avoid revising decisions once made.
